E__ Neck pain has restricted my social life to my home. F__ I cannot do recreational activities due to neck pain.</p>

COMMENTS:

Authorization and Consent

- 1) **Assignment of benefits:** I hereby authorize Delta Chiropractic Center and Active Role Chiropractic to examine and treat my condition as they deem appropriate. I authorize payment directly to the provider of any and all benefits for charges for exams and care received by me or my dependents. I also authorize benefit payers to release all information requested regarding such benefits and payment to the provider above. I also authorize the provider to release all information needed to obtain those benefits. I also agree that I am responsible for all bills incurred at this office. As an estimate of the fees for your proposed treatment plan, we may bill your insurance company for your exam and x-rays, as well as \$60 per adjustment. I understand that while DCC will do their best to monitor my benefits, they highly recommend that I contact them also, because what is not covered by insurance, I will pay. Delta Chiropractic Center will not be held responsible for any medical condition or diagnosis.

Initial Here: _____

- 2) **Informed Consent:** Chiropractors do not diagnose diseases. Our job is to find areas of nerve interference and to remove it. We suggest that you visit your medical doctor in order to care for any health concerns other than Nerve Impingement. We also want you to realize there are risk factors involved in any form of health care. Surgery may have death risk factors of anywhere from 1/1,000 to 1 in 100. Medication may cause serious reactions in 1/100,000 to 1 in a thousand cases. Proper chiropractic adjustments almost never result in serious reactions: less than 1 in a million, but may include sprain, cerebrovascular accident or disc damage. The risks of refusing chiropractic care include degeneration, nerve damage, and increased duration, frequency, and intensity of your symptoms. **Initial Here:** _____

3) X-rays:

- a. I understand that all x-rays are taken to provide more accurate information concerning my care. The value of this information outweighs the minimal radiation risks involved. (The radiation in these studies is very small, and is minimized by our regular upkeep and calibration of our equipment. You receive more radiation from your television set, from natural background radiation, and even from the foods you eat. The doctor will not ask you to do anything he does not ask of his own family.) **Initial Here:** _____
- b. I am not pregnant. **Initial Here:** _____
- c. I understand and agree that fees paid to the office for x-rays are for information and analysis only. **By state law**, I have the right to obtain the information gained from these x-rays, but **the films themselves will remain the property of Delta Chiropractic Center** or Active Role Chiropractic Clinic, and **the original films will not be allowed to leave the office**. Copies can be obtained for \$10.00 per view, with three days notice. A brief written or oral report may be obtained at no charge. **Initial Here:** _____
- d. If you bring x-rays to the office for reading and analysis, there is a \$30.00 fee for each series. Insurance will not cover this fee and I will pay it. **Initial Here:** _____
